CROSSING
Galápagos

Iguana Crossing is a beachfront Hotel in the pristine environment of the Galápagos Islands. Surrounded by native vegetation and combining natural beauty with modern comforts, the hotel provides a tranquil setting with exclusive island materials. Named after the “iguana crossing” path, it’s the ideal location to explore Isabela Island. Guests can unwind by the pool, savor island cuisine at the ocean-view bar, and enjoy the local wildlife. The friendly, mostly island-based staff ensure a relaxing and enjoyable stay.

Environmental Design

Using genuine and exclusive materials of the Island, it approaches a harmonic atmosphere between nature and modernity.

Strategically Located

Isabela Island's Master Suite offers an oceanfront balcony with unmatched luxury. The Junior Suite provides beautiful ocean views, ideal for couples. Ocean View Rooms are perfect for small families or two adults, while Volcano View Rooms offer stunning views of the Scalecia Forest and Sierra Negra Volcano.

Events & Experiences

We happily arrange wedding ceremonies and private tours for groups of up to 50. From Galapagos-themed invitations to receptions and live entertainment, we curate every detail to create a memorable event.

Wonderful Fusion Gastronomy

Featuring gourmet fusion dishes, with a highlight on grill specialties cooked on lava stone, paired with organic vegetables from our Isabela highlands hacienda and fresh fruit juices. We offer regional favorites like shrimp or fish ceviche and traditional Ecuadorian sancocho. Coffee and milk are also sourced from our hacienda, the fruits from local farms, and the seafood is the catch of the day. Bread is baked fresh every morning at a local bakery.

Activities & Tours

Explore the Galápagos with our exclusive tours! Snorkel with sea lions at Tintoreras, hike Sierra Negra Volcano for stunning views, and explore tortoise habitats and lava formations. Over 3 to 5 days, enjoy unforgettable sights like the Wall of Tears, flamingo lagoons, and the dramatic landscapes of Los Túneles.
